Introduction

Dear Colleagues, Dear Friends,

Surgery is the core of Urology. For more than a century, Urology has been – and still is – one of the most innovative surgical specialties in modern medicine. Indications in oncology, reconstruction, kidney stones, BPH, and andrology are managed using open, laparoscopic, robotic, endourological, shock wave or microscopic procedures. The variable combination of indications and procedures creates a multitude of treatment options.

Against this backdrop – by way of a navigation aid in a complex surgical universe - the symposium Semi-Live focuses on contemporary, state-of-the-art urologic procedures for complex and standard indications. Additionally, the topics of intestinal anastomosis and intraabdominal vascular repair techniques are covered as important urological tools.

In this context, Semi-Live brings together some of the most eminent surgeons from around the world. They have been invited to Heidelberg one year ahead of the actual event. That time frame allows them to prepare, operate, and record their ideal case just for you. The resulting 15 minutes of high-definition, uninterrupted videos per speaker will be commented live to the audience by the surgeons themselves.

They will present anatomical landmarks, access strategies, important steps, elegant tricks, pitfalls and complication management in an intense, live setting.

Each presentation will be followed by 15 minutes of discussion, which may be continued later in the speaker's corner. This allows you plenty of time to get every last detail of any of the procedures presented which you are interested in. Inspiring scientific discussions can continue during the Friday evening, when the presenters and audience are invited for dinner in one of the oldest and most beautiful microbreweries in Heidelberg's old town.

Semi-Live is supplemented by a surgical workshop. Here, a limited number of participants can receive hands-on training in essential laparoscopic and robotic techniques.

Such a new concept of exchanging and relaying urological surgical knowledge could not have been made a reality without extensive support. We are indebted to Dr. h.c. mult. Sybill Storz, managing director of KARL STORZ GmbH & Co.KG, who was immediately convinced by the concept of Semi-Live and pledged the most essential support. At the same time, we are more than grateful to all other partners from industry who sponsor this event as well. We are looking very much forward to welcoming you to Heidelberg.

Best regards on behalf of the organizing committee,

Dogu Teber

Markus Hohenfellner

Conference Program Friday, January 30th, 2015

09:30 am **Welcome**
Markus Hohenfellner, Vito Pansadoro, Dogu Teber, Xu Zhang

Moderators: Ralph Clayman, Mohamed Ghonheim, Richard Gaston, Vito Pansadoro

10:00 am **Access and landmarks in laparoscopic and robotic kidney surgery, step-by-step**
Jens Rassweiler

10:30 am **Robotic partial nephrectomy, Part I
tips and tricks in the reduction of ischemia time, step-by-step**
Jens-Uwe Stolzenburg

11:00 am **Laparoscopic retroperitoneoscopic partial nephrectomy, Part II
Reconstruction of the kidney after tumor resection** · Xu Zhang

11:30 am **Perfect laparoscopic adrenalectomy**
Levent Türkeri

12:00 am **Lunch break and exhibition**

Moderators: Richard Hautmann, Ashutosh Tewari, Peter Albers, Jens Rassweiler

01:00 pm **Robotic partial nephrectomy, vessel control and reconstruction of the
kidney after tumor resection**
Inderbir S. Gill

01:30 pm **Partial nephrectomy with intraoperative perfusion and cooling of the kidney**
Jürgen Gschwend

02:00 pm **Cryotherapy of kidney tumors**
Pilar Laguna

02:30 pm **Laparoscopic management of vascular injuries during laparoscopic nephrectomy**
Renaud Bollens

03:00 pm **DynaCT-navigated laparoscopic partial nephrectomy**
Dogu Teber

03:30 pm **Coffee break and exhibition**

Moderators: Christian Schwentner, Christian Chaussy, Mahesh Desai, Daohu Wang

04:00 pm **The perfect TUR-P**
Vito Pansadoro

04:30 pm **Flex. URS and uppertract TCC treatment**
Alberto Breda

05:00 pm **Endoscopically guided PCNL**
Ralph Clayman

05:30 pm **PCNL upper calyx access**
Mahesh Desai

06:00 pm **The “perfect” ESWL**
Christian Chaussy

Conference Program Saturday, January 31st, 2015

Moderators: Mohamed Ghoneim, Jesco Pfitzenmaier, Xu Zhang, Jens-Uwe Stolzenburg

09:00 am **Perineal radical prostatectomy – initial approach and important steps**
Hansjörg Keller

09:30 am **Robotic prostatectomy – nerve-sparing**
Ashutosh Tewari

10:00 am **Robotic prostatectomy – posterior access**
Aldo Bocciardi

10:30 am **Robotic prostatectomy – cranial-lateral dissection with sparing of the Santorini plexus** · Richard Gaston

11:00 am **Robotic prostatectomy – anterior & posterior reconstruction to improve early continence** · Vito Pansadoro

11:30 am **Robotic prostatectomy – advanced dorsal approach**
Markus Hohenfellner

12:00 am **Lunch break and exhibition**

Moderators: Arnulf Stenzl, Jürgen Gschwend, Christian Gilfrich, Levent Türkeri

01:00 pm **Nerve-sparing cystectomy**
George Thalmann

01:30 pm **Laparoscopic cystectomy (Diversion-Part)**
Christian Schwentner

02:00 pm **Different types of bowel anastomoses**
Markus Büchler

02:30 pm **Coffee break and exhibition**

Moderators: Markus Hohenfellner, Pilar Laguna, George Thalmann, Markus Büchler

03:00 pm **Replacement of the ureter with ileum**
Mohamed Ghoneim

03:30 pm **Continent cutaneous diversion**
Mohamed Ghoneim

04:00 pm **Ileocecal pouch**
Alexander Lampel

04:30 pm **The neobladder**
Richard Hautmann

05:00 pm **Female neobladder**
Arnulf Stenzl

05:30 pm **RLA – post-chemotherapy**
Peter Albers

06:00 pm **Technical tips in vascular reconstructions**
Alexander Hyhlik-Dürr

Scientific Board

INDERBIR S. GILL

**University of Southern California
Department of Urology, Los Angeles, USA**

Friday 30th · 1:00 pm

**Robotic partial nephrectomy, vessel control and reconstruction
of the kidney after tumor resection**

Inderbir Gill is Professor of the University of Southern California (USC's) Department of Urology. Dr. Gill's primary focus is advanced robotic urologic oncologic surgery, with one of the world's largest aggregate robotic/laparoscopic experiences in the United States. His team is actively developing innovative flexible robotics and natural orifice and single-port laparoscopic surgery in Urology. He and his team are focusing on developing novel image-guided targeted biopsies and lesion-specific focal therapy treatments for prostate cancer.

VITO PANSADORO

**Vincenzo Pansadoro Foundation
Centre of Robotic Laparoscopy, Rome, Italy**

Friday 30th · 04:00 pm and Saturday 31st · 11:00 am

The perfect TUR-P

**Robotic prostatectomy – anterior and posterior reconstruction to
improve early continence**

Vito Pansadoro is the Director of the Vincenzo Pansadoro Foundation, Centre of Robotic Laparoscopy in Rome, Italy. Vito Pansadoro is internationally respected as a specialist in Laparoscopic Robotic Surgery. He has organized several International scientific conferences on live urologic oncological laparoscopic and robotic surgery, hosting the most prominent surgeons in this field. He is a member of the most important Italian and international scientific and medical societies.

JENS RASSWEILER

**University of Heidelberg
Department of Urology, Heilbronn, Germany**

Friday 30th · 10:00 am

**Access and landmarks in laparoscopic and robotic
kidney surgery step-by-step**

Jens J. Rassweiler has been Head of the Department of Urology at the Klinikum Heilbronn, Academic Hospital of the University of Heidelberg, since 1994. In 1982 he started his urological training at the Katharinenhospital Stuttgart, where he was directly involved in the clinical introduction of ESWL, URS and PCNL. In 1992, he was the first German surgeon to perform a laparoscopic nephrectomy. Jens J. Rassweiler is an active member of various urological societies and on the editorial board of a variety of international journals.

Scientific Board

JENS-UWE STOLZENBURG

**University of Leipzig
Department of Urology, Leipzig, Germany**

Friday 30th · 10:30 am

**Robotic partial nephrectomy, Part I
tips and tricks in the reduction of ischemia time, step-by-step**

Jens-Uwe Stolzenburg is Professor and Chairman of the Department of Urology and Head of the International Training Centre of Urological Laparoscopy and Robotic-assisted surgery at the University of Leipzig. Jens-Uwe Stolzenburg is a member of various national and international urological boards and societies. He has received numerous international invitations from all over the world for live surgery conventions/conferences and teaching. He is the only surgeon who is honorary member of all three Royal Colleges of Surgeon of Great Britain (FRCS: Ed, Engl, Glasg).

LEVENT TÜRKERİ

**Acıbadem University
Department of Urology, Istanbul, Turkey**

Friday 30th · 11:30 am

Perfect laparoscopic adrenalectomy

Levent Türkeri is a Professor of Urology and is currently Director of the School of Urology and Coordinator of the Board of Urology within the Society of Urological Surgeons (Turkey). His main area of expertise is uro-oncology, chiefly involving robotic, laparoscopic and open surgery. His research interest involves molecular aspects of diagnosis and prognostic factors of urological malignancies, along with clinical trials. He is actively involved with a number of national and international urological societies.

XU ZHANG

**Chinese PLA General Hospital
Beijing, China**

Friday 30th · 11:00 am

**Laparoscopic partial Nephrectomy-retroperitoneoscopic, Part II
Reconstruction of the kidney after tumor resection**

Xu Zhang is Head of the Department of Urology at the Chinese PLA General Hospital in Beijing and on the permanent committee of the China Medical Association Urology department. He has pioneered laparoscopic and robotic skills in urology in China for years and devoted himself to the application of retroperitoneal laparoscopy in Urology and popularizes the skill worldwide. Today, he is leading the largest robotic group in Chinese Urology and focusing on basic research into the mechanism of renal cell carcinoma metastasis.

Moderators

CHRISTIAN GILFRICH

**Klinikum St. Elisabeth Straubing
Department of Urology, Straubing, Germany**

Cystectomy

Christian Gilfrich has been Head of the Urological Department of the Klinikum St. Elisabeth in Straubing since 2008. He completed his residency in the Department of Urology at the University of Mainz (Prof. R. Hohenfellner, Prof. Thüroff). From 2003–2008 he was Senior Physician in the Dept. of Urology at Heidelberg University Hospital (Prof. M. Hohenfellner). His focus is mainly on minimally invasive and robotic urological oncological surgery.

JESCO PFITZENMAIER

**Ev. Krankenhaus
Department of Urology, Bielefeld, Germany**

Prostate Cancer

Jesco Pfitzenmaier has been Head of the Department of Urology at the Evangelisches Krankenhaus Bielefeld since 2010. He completed his residency at the University of Mainz (Prof. Thüroff). Subsequently he completed a postdoctoral fellowship in Urologic Oncology at the University of Washington in Seattle (Prof. Lang). In 2004 he became an Associate Professor in the Department of Urology (University of Heidelberg) before taking over the Department in Bielefeld. His focus is mainly on urologic oncologic surgery with robotic surgery being a main component.

DAOHU WANG

**The First Affiliated Hospital, Sun Yat-sen University
Department of Urology, Guangzhou, China**

Urolithiasis

DaoHu Wang is an Associate Professor in the Department of Urology at The First Affiliated Hospital, Sun Yat-sen University, Guangzhou, China. His chief area of research is in laparoscopic surgery and management of urological tumors and has a lot of experience in laparoscopic surgery, for example laparoscopic adrenalectomy, nephrectomy, partial nephrectomy, retroperitoneal lymphadenectomy, radical prostatectomy and laparoscopic urological reconstruction surgery.

Speakers

PETER ALBERS

**University of Düsseldorf
Department of Urology, Düsseldorf, Germany**

Saturday 31st · 5:30 pm
RLA – post-chemotherapy

Peter Albers is Professor and Chairman of the Department of Urology at the University of Düsseldorf, Düsseldorf, Germany. He is an expert in the field of uro-oncology and as such a member of the GU group of the European Organisation for the Research and Treatment of Cancer (EORTC) and Chairman of the European Association of Urology (EAU) Testis Cancer Guidelines Group. He is former Congress President and current Vice President of the German Cancer Society.

ALDO BOCCIARDI

**Niguarda Ca' Granda Hospital
Department of Urology, Milan, Italy**

Saturday 31st · 10:00 am
Robotic prostatectomy – posterior access

Aldo Bocciardi is Head of the Urology Unit at the Niguarda Ca' Granda Hospital in Milan. He began his career at the San Raffaele Hospital in Milan, where he was Head of the Pediatric Urology Unit. His main focus is on oncologic and robotic urological surgery, where he has developed the new Retzius-sparing approach for radical prostatectomy that passes through the Douglas space. Aldo Bocciardi has performed more than 600 operations with this technique.

RENAUD BOLLENS

**Hopital St Phillibert
Catholic University of Lille, France**

Friday 30th · 2:30 pm
**Laparoscopic management of vascular injuries during
laparoscopic nephrectomy**

Renaud Bollens has been Professor and Chairman of Urology at the Catholic University of Lille (Hopital St. Philibert) since 2009. He started his urological career in 1996 at the Department of Urology in Brussels, Belgium (Prof. Van Velthoven) and completed his training in 2000 at the Erasme Hospital Brussels, where he was Head of the Department of Urology between 2006 and 2008. Renaud Bollens is a member of the European Association of Urology (EAU), the Belgian Association of Urology (BAU) and the Belgian Laparoscopic Urological Group (BLUG).

Speakers

ALBERTO BREDÁ

Fundació Puigvert
Department of Urology, Barcelona, Spain

Friday 30th · 4:30 pm
Flex. URS and upper tract TCC treatment

Alberto Breda is Head of the Kidney Transplant Division at the University Autònoma de Barcelona in Spain. He began his career at the University of California in Los Angeles, where he worked as a clinical instructor and assistant professor in the Department of Urology. His main focus lies on minimally invasive surgery and kidney transplants. Alberto Breda has 70 publications in international journals and has received numerous awards and honours.

MARKUS BÜCHLER

University of Heidelberg
Department of Surgery, Heidelberg, Germany

Saturday 31st · 2:00 pm
Different types of bowel anastomoses

Markus W. Buechler is Professor of Surgery and Chairman of the Department of Surgery at the University of Heidelberg. He is an internationally respected expert in the field of hepatobiliary and colorectal surgery, and especially in the field of pancreatic surgery. Prof. Buechler is a member of various national and international scientific organisations.

CHRISTIAN CHAUSSY

Städtisches Klinikum Harlaching
Department of Urology, Munich, Germany

Friday 30th · 6:00 pm
The »perfect« ESWL

In 1980 Christian Chaussy treated the first patient worldwide with ESWL at the University of Munich. 1996 he started the use of HIFU for the treatment of localized prostate cancer. In addition to his Professorship in Munich he currently holds positions as Consultant Professor at the Department of Urology, University of Regensburg and as Clinical Professor of Urology at the Keck School of Medicine, USC.

Speakers

RALPH CLAYMAN

**University of California
Department of Urology, Irvine, USA**

Friday 30th · 5:00 pm
Endoscopically guided PCNL

Ralph Clayman is Professor of Urology/Dean emeritus at UCI. He became Professor of Urology and Radiology at Washington University in 1984. In 1990, he and his team performed the world's first laparoscopic nephrectomy. In January 2002, he became Chair of the Department of Urology at the University of California – Irvine (UCI).

MAHESH DESAI

**Muljibhai Patel Urological Hospital
Department of Urology, Nadiad, Gujarat, India**

Friday 30th · 5:30 pm
PCNL upper calyx access

Mahesh Desai is Medical Director of the Muljibhai Patel Urological Hospital (MPUH) and its Centre for Robotic Surgery in Nadiad, Gujarat – India. At the MPUH he performed the first live kidney transplant. He is also Director of the Jayaramdas Patel Academic Centre, which provides training programs for endourology and laparoscopic surgery. He has pioneered treatment for diverse urological and kidney diseases in India. He is a leading member of different national and international urologic societies.

RICHARD GASTON

**Saint Augustin Hospital
Bordeaux, France**

Saturday 31st · 10:30 am
**Robotic prostatectomy – cranial-lateral dissection
with sparing of the Santorini plexus**

Richard Gaston has been Head of the Department of Urology at Saint Augustin Hospital, Bordeaux, France, since 1985. In 1991 he started with laparoscopic surgery and in 1997 he performed the first laparoscopic radical prostatectomy in Europe. Richard Gaston is an active member of various urological societies and on the editorial board of a variety of international journals. In his center in Bordeaux he performs laparoscopic surgery on the prostate, kidney, bladder cancer and complex reconstructive prolapse surgery in women.

Speakers

MOHAMED GHONEIM

**University of Mansoura
Department of Urology and Nephrology, Mansoura, Egypt**

Saturday 31st · 03:00 pm and Saturday 31st · 3:30 pm

**Replacement of the ureter with ileum
Continent cutaneous diversion**

Mohamed A. Ghoneim is the founder of the Urology and Nephrology Center, Mansoura University, Egypt. During the 26 years of his leadership, the center became an internationally reknown urological institution with visionary techniques of scientific data sampling and evaluation. An exemplary surgeon, he is recognized especially for radical cystectomy, urinary diversion, reconstructive urethral surgery and kidney transplantation. He is a member of the most prestigious urological associations.

JÜRGEN GSCHWEND

**University Hospital rechts der Isar
Department of Urology, Munich, Germany**

Friday 30th · 1:30 pm

**Partial nephrectomy with intraoperative perfusion and
cooling of the kidney**

Jürgen Gschwend has been Professor of Urology and Director of the Dept. of Urology at the Technical University Munich since 2006. His main clinical and research topics are uro-oncology including function-sparing pelvic surgery (prostate and bladder cancer) and orthotopic urinary reconstructions. Other clinical activities include complex nephron-sparing surgery, minimally invasive procedures and systemic urooncologic tumor therapy including chemotherapy and targeted therapy. He is currently Acting Chair of the Munich Cancer Center (TzM).

RICHARD HAUTMANN

**University of Ulm
Department of Urology, Ulm, Germany**

Saturday 31st · 4:30 pm

The neobladder

Richard Hautmann was the Head of the Department for Urology and Paediatric Urology at Ulm University Hospital from 1984 to 2009. He is an expert consultant in the Department of Urology at the Klinikum Lüdenschaid. The internationally renowned urologist developed the surgical technique of the neobladder. Richard Hautmann is a member of various medical organisations. His major scientific interests are the neobladder, bladder cancer and cystectomy, urolithiasis and oxalate.

Speakers

MARKUS HOHENFELLNER

University of Heidelberg
Department of Urology, Heidelberg, Germany

Saturday 31st · 11:30 am

Robotic prostatectomy – advanced dorsal approach

Markus Hohenfellner is Professor of Urology and Director of the Department of Urology at Heidelberg University Hospital. His main activities are uro-oncology including minimally invasive, robotic, ultraradical and reconstructive surgery as well as multimodular interdisciplinary comprehensive cancer therapy. Within the German Cancer Aid Foundation he particularly focuses on »novel tools« in oncology and biobanking.

ALEXANDER HYHLIK-DÜRR

University of Heidelberg
Department of Vascular Surgery, Heidelberg, Germany

Saturday 31st · 6:00 pm

Technical tips in vascular reconstructions

Alexander Hyhlik-Dürr is Senior Physician in the Department of Vascular and Endovascular Surgery, Heidelberg University Hospital. His main clinical focus is open and endovascular aortic surgery, with his current research focusing on Finite Element Analyses in aortic aneurysms.

HANSJÖRG KELLER

Sana Klinikum Hof GmbH
Department of Urology, Hof, Germany

Saturday 31st · 9:00 am

Perineal radical prostatectomy – initial approach and important steps

Hansjörg Keller is Director of the Department of Urology, Pediatric Urology, Urological Oncology and Palliative Care at the Sana Klinikum Hof in Germany. He is a specialist in the field of uro-oncology, radical perineal prostatectomy as well as reconstructive surgery. In 2003 he developed extended perineal lymph node dissection using a perineal approach.

Speakers

PILAR LAGUNA

**University of Amsterdam
Department of Urology, Amsterdam, Netherlands**

Friday 30th · 2:00 pm
Cryotherapy of kidney tumors

M. Pilar Laguna was a staff member at the Fundació Puigvert, Spain's leading center for the provision of specialised medical care in urology, nephrology and andrology. She became Chief of Department of Urology at the hospital La Mancha Centro and began her career at the AMC University of Amsterdam in 2002, where she is now Professor of Uro-Oncology and Coordinator of the Kidney Center. M. Pilar Laguna holds active memberships in various international urological associations and directs the AMC Department of Urology's research activities into kidney cancer.

ALEXANDER LAMPEL

**Schwarzwald-Baar Klinikum
Department of Urology, Villingen-Schwenningen, Germany**

Saturday 31st · 4:00 pm
Ileocecal pouch

Alexander Lampel has been Head of the Urological Department of the Schwarzwald-Baar-Klinikum in Villingen-Schwenningen since 2000. He began his urological career in 1984 at the Department of Urology in Wuppertal, Germany and completed fellowships at the Mansoura Urology and Nephrology Center, Egypt and in the Department of Urology at the University of Lund, Sweden. His special interests are all types of incontinent and continent urinary diversion, female and male incontinence surgery, along with radical prostatectomy.

CHRISTIAN SCHWENTNER

**University of Tuebingen
Department of Urology, Tuebingen, Germany**

Saturday 31st · 1:30 pm
**Laparoscopic cystectomy
(Diversion-Part)**

Christian Schwentner is Professor of Urology and Urological Oncology at the Department of Urology, Tuebingen University Hospital, Germany. He is the program director of minimally invasive urological surgery and robotics in Tuebingen as well as the coordinator of the comprehensive cancer centre. His research interests focus on prostate and bladder cancer as well as on the advancement of minimally invasive surgical techniques.

Speakers

ARNULF STENZL

**University of Tuebingen
Department of Urology, Tuebingen, Germany**

Saturday 31st · 5:00 pm
Female neobladder

Arnulf Stenzl is Director of the Department of Urology, University of Tuebingen Medical School. He is Chairman of the Scientific Congress Office of the European Association of Urology. His major research interests are bladder and prostate cancer and reconstructive Urology. He is an investigator in numerous clinical trials and has organized numerous national and international symposiums subjects relating to bladder cancer, and other urologic topics.

DOGU TEBER

**University of Heidelberg
Department of Urology, Heidelberg, Germany**

Friday 30th · 3:00 pm
DynaCT-navigated laparoscopic partial nephrectomy

Dogu Teber is Senior Physician at the Department of Urology, Heidelberg University Hospital. His special affiliation is in the field of minimally invasive urological surgery. His main research interests lie in intraoperative navigation and in new technologies in urological imaging.

ASHUTOSH TEWARI

**Mount Sinai Hospital
Department of Urology, New York, USA**

Saturday 31st · 9:30 am
Robotic prostatectomy – nerve-sparing

Ashutosh Tewari is a world-renowned urologist and prostate cancer specialist. As Director of the Department of Urology, he leads a multidisciplinary team committed to improving prostate cancer treatment, research and education. The Tewari Lab is currently involved in research to unlock the genomic causes of prostate cancer and translating genomic information to practical application by physicians through imaging.

Speakers

GEORGE THALMANN

**Inselspital Bern
Department of Urology, Bern, Switzerland**

Saturday 31st · 1:00 pm
Nerve-sparing cystectomy

George Thalmann is the Chairman and Director of the Department of Urology, University of Bern, Inselspital. He is a member of various urological societies and a member of the research council for the Swiss National Science Foundation, and a reviewer for many journals. His scientific interests are prostate cancer progression and metastasis and bladder cancer.

Meet up at the Conference Dinner

Kulturbrauerei Heidelberg

When: Friday, January 30th, 2015, 7:30 pm

Where: Kulturbrauerei Heidelberg
Leyergasse 6
69117 Heidelberg

For transportation services, ask at the registration desk.

- Brewery, restaurant and hotel in the middle of the historic part of Heidelberg
- Ancient student tavern with traditional interior
- Long brewery tradition dating back to 1235
